

Requirements for Accreditation

Iowa Non-Public Schools

Introduction

With respect to both public and non-public schools, the state has the authority and responsibility to be assured of an educational program which is in accordance with minimal standards. For the purposes of this document, references to the *Code of Iowa* are the statutes enacted by the Iowa legislature as they apply to the schools in Iowa (e.g., Chapter 256). Approval standards are those rules and regulations promulgated by the Iowa Department of Education and found in the *Iowa Administrative Code* (IAC). These standards detail the statutes as to intent and purposes and carry the force and effect of law (e.g., 281—IAC 12.1).

Here is a link to 281—IAC Chapter 12, which details requirements to be an accredited non-public school in Iowa Code:

[281--Iowa Administrative Code 12](#)

An accredited school is one that meets or exceeds the minimum requirements for operation as either an elementary or secondary school as stated in the general statutes and regulations adopted by the State Board of Education. If a school meets these minimum standards, it shall be granted accreditation.

Application for Accreditation: First Time, Reinstatement, or Adding Grade Levels

A school seeking initial accreditation, or a school wishing to be reinstated as an accredited school, or an accredited school seeking to add grade levels to its accreditation shall make application in writing to the Director of the Iowa Department of Education on or before January 1 immediately prior to the school year for which it seeks accreditation.

Notice of Accreditation

A notice of accreditation will be issued in the name of the entity applying for accreditation. This notice is valid until voluntarily surrendered by the school or revoked by action of the State Board of Education. Continued accreditation will be based upon compliance with accreditation standards as indicated by official reports to the State Director and periodic visits to the school by Department of Education consultants for school improvement. Requirements for Accreditation Iowa Non-Public Schools The accreditation of the school may not be sold, transferred, or pledged.

Other Information

Note: The following are requirements that must be adhered to, but are not required for accreditation status.

At least twice each year, school authorities must work with the local county auditor to offer the opportunity to register to vote to all students who are at least 17 1/2 years of age. Iowa Code § 48A.23, 280.9A.

Non-public schools must conduct two fire drills and two tornado drills between July 1 and December 31 of each year and again between January 1 and June 30 of each year. Doors and exits of all rooms and buildings must be unlocked when occupied. Fire/tornado warning systems must be installed and first-aid fire extinguishers available. Non-public schools are inspected by the state fire marshal's office or the local city fire department at least once every two years to assess compliance with the fire safety standards and to identify potential fire hazards. Iowa Code § 100.31.

Private schools must cooperate with investigations of child abuse conducted by the Department of Human Services. The school must provide confidential access to the child alleged to be abused and to other children to obtain relevant information. The investigator may observe the child but a witness must be present. Any child age 10 or older can terminate contact with the investigator by stating his desire to do so. Iowa Code § 232.71.6.

Non-public schools must maintain a suitable flagstaff and raise the United States flag and the Iowa state banner on all school days when weather conditions permit. Iowa Code § 280.5.

Non-public schools must provide eye and ear-protective devices for students and teachers participating in shop or laboratory courses that pose a potential hazard. Iowa Code § 280.10, .11.

Adequate staffing must be maintained in accredited non-public schools. Iowa Code § 280.14

Non-public schools must prescribe procedures for handling child abuse reports alleged against an employee or agent of the school in accordance with state guidelines. Iowa Code § 280.17.

Accredited non-public schools must have procedures in place and are required to report to local law enforcement any incident of a dangerous weapon being possessed on school property. Iowa Code § 280.17A.

Accredited non-public schools shall prescribe procedures for "continued school involvement" with a student suspended or expelled for possession of a dangerous weapon at school, and for the reintegration of the student into the school after the suspension or expulsion. Iowa Code § 280.17B.

Accredited non-public schools are required to comply with the federal Gun-Free School Act, which requires a one year expulsion of a student who possesses a weapon at school (can be modified on a case-by-case basis upon recommendation of superintendent). Iowa Code § 280.21B.

Accredited non-public schools must have procedures to report to law enforcement any violation of law or school policy with respect to drugs or alcohol. Iowa Code § 280.24.

Accredited non-public schools must have policy providing that school may share certain information with juvenile authorities. (This section is very involved; school should consult its attorney.) Iowa Code § 280.25.

Accredited non-public schools must file with the district within which it is located an annual report of students' names, ages, grade levels, truancy information, dropout, and transfer data. Iowa Code § 299.3.

The authorities in charge of an accredited non-public school must prescribe reasonable rules for the punishment of truants pursuant to Iowa Code § 299.9.

Meeting the requirements of health and fire authorities is mandatory in all localities. Check with the State Fire Marshal for all current codes and requirements. All state and building codes must be observed.

All public and private, nonprofit K-12 elementary and secondary schools are required to comply with federal regulations related to asbestos.

In an attempt to prevent exposure to occupants of schools, Congress enacted the Asbestos Hazard Emergency Response Act of 1986 (AHERA), 15 U.S.C. 2641, et seq. AHERA required EPA to promulgate regulations that provide for the inspection of school buildings for asbestos-containing building materials and for local education agencies (LEAs) to plan, manage, and respond to these potential health hazards.

The Asbestos-Containing Materials in Schools Rule requires Local Education Agencies (LEAs) to inspect each school building under their authority, identify the locations of all building materials suspected of containing asbestos, either sample or analyze the material or assume that it contains asbestos, and develop a plan for properly managing all known or assumed asbestos-containing material. Inspection and development of a management plan must be conducted by persons who have taken federally recognized and approved training and hold a valid certificate documenting this training (40 C.F.R. part 763, subpart E, appendix C).

The regulation requires that management plans be submitted to the Governor of the state, or his designee, by October 12, 1988. It further requires that any building leased or acquired on or after October 12, 1988, that is to be used as a school building, shall be inspected and a management plan submitted to the Governor prior to its use as a school building. The Iowa Department of Education has been designated by the Governor to receive the asbestos management plans.

If you have questions concerning asbestos or buildings and safety, please feel free to contact this person: W. Scott Dryer at the Iowa Department of Education at (515) 402-8700 or email him at scott.dryer@iowa.gov.
