RE: Request for move to online learning at the Glenwood Community High School

Dear Mr. Embray,

As of today, Mills County has a 22% positivity rate for the past 14 day time period. Today the high school absenteeism rate was 21.76%. Both of these percentages are above the threshold for an automatic online learning approval. State rules allow districts to move online temporarily under these circumstances.

I highly agree with your plan to move to online learning as soon as possible. This 14 day plan will allow for better containment of the spread of COVID-19. If you have any other concerns, please call me at 712-527-0011.

Sincerely,

Julie Lynes
