

# **Iowa Department of Education ICN Report Assumptions and Comments FY2011-2012**

The Department of Education established six sets of assumptions for different types of uses by the department of the Iowa Communications Network. Each of these assumptions along with related comments follows.

The cost savings generating from our assumptions totaled \$152,297.17. Different types of meetings generated different costs or savings. Our constituent groups of the local education agencies, area education agencies, community colleges, and other education stakeholders realize many of the savings identified by the department. While the identified savings are realized by other entities; the costs of the ICN usage are borne by the department with no increases in funding to cover either the costs of the sessions or our administrative costs of operating a classroom in the department. These costs and savings are also accrued to a variety of funding sources such as state, federal, and other funds. While we did not make an attempt to break these types of meetings into all of the separate funding sources available to the department, the majority of our ICN usage is funded through federal grants received by the department.

## **ICN Usage Type 1-Board and Commission Meetings**

The value-added to the agency for this type of usage is reduced cost to connect board and commission members with constituents and experts. Being able to use this type of connect eliminates the much higher expense of bringing people in while allowing for the same access. Assumptions are:

- One person at each site
- No meal costs
- No lodging costs
- Room will be paid for each site

If the meeting had not been held over the ICN, it would have been held in Des Moines with the following costs:

- Round trip mileage from each site to Des Moines at \$.039/mile
- Lodging at \$84.00 per night (over 50 miles)
- Meals at \$43.00 per day

There would be no difference in per diem costs for board members or salary costs for staff attending the meeting.

The department used the ICN 9 times at 60 sites for board and commission meetings. Our assumptions generated a savings in FY12 of \$7,180.72.

## **ICN Usage Type 2-Departmental Meetings**

The value-added benefit of this type of connection occurs in two ways. The Department convenes literally dozens of groups for various types of work. Using these connections now only saves money directly by not having to bring people in, but it helps us be more efficient with staff members' time. Using these connections eliminates the need to travel to groups or bring groups in. This allows staff members' time to be used for the more important work of planning and implementing programming rather than travelling. Assumptions are:

- Five attendees at each site
- Each site charges room rental
- Each attendee reimbursed \$12.00 for lunch
- No mileage reimbursement or substitute teacher pay

If the meeting had not been held over the ICN, it would have been held in Des Moines with the following costs:

- No room rental; meeting held on state complex
- No increase or decrease in DE staff costs
- Attendees from sites in excess of 200 miles (assumes 1 car) will incur round trip mileage at \$.039/mile, lodging at \$84.00 per night; and \$43.00 for meals
- Attendees from sites less than 200 miles will incur round trip mileage at \$.039/mile and \$12.00 for meals
- No substitute teacher pay costs will be incurred

The department used the ICN 21 times at 155 sites for departmental meetings. These meetings generated a savings for FY12 of \$28,221.20.

## **ICN Usage Type 3-Training with 10 or 11 sites**

This category of connection provides value-added benefit by allowing the Department to reach a large segment of a given group of stakeholders without the room rental and other costs associated with convening large groups of people. It also saves the time of the constituents who are being connected, efficiently allowing them to access information without the associated travel connected to a large-scale meeting. Assumptions are:

- No ICN room rental charges for training
- Assumes one site in each Area Education Agency plus the department
- No costs reimbursed for meeting attendees
- Ten attendees at each site
- Round trip mileage from Des Moines to each site \$0.39/mile.

If the training had not been held over the ICN, there would have been training sessions held at each Area Education Agency with the following costs for 1 DE Trainer:

- Assumes average miles to an AEA from Des Moines is 130 miles for a round trip at a cost of \$101.40
- Staff/Trainer would incur one night's lodging at \$56.00 for the 7 AEA's that are in excess of 100 miles from Des Moines
- Average salary cost for a staff member is \$423.00 per day
- Meal cost would be \$28.00 if the AEA is greater than 100 miles from the department, \$8.00 if less than 40 miles from the department, and \$23.00 if between 40 and 100 miles from the department.
- There would be no productivity costs for sessions held on the capitol complex.

The department used the ICN 1 times at 11 sites for training involving 10 or 11 sites. This usage of the ICN resulted in a savings calculation of \$6,121.28. This usage of the ICN enabled the department to train more school personnel with less staff time.

### **ICN Usage Type 4-Training with less than 10 sites**

This type of value-added connection is similar to type 3 in that it helps us serve our constituent groups at low cost and with time efficiency. Assumptions are:

- No ICN room rental charges for training
- Assumes we would have held a training session at each of the sites that had been scheduled for the ICN session
- No costs reimbursed for meeting attendees
- Ten attendees at each site
- Round trip mileage from Des Moines to each site \$0.39/mile

If the training had not been held over the ICN, there would have been the following costs of holding on-site training:

- Assumes average miles to an AEA from Des Moines is 130 miles for a round trip at a cost of \$101.40
- Staff/Trainer would incur one night's lodging at \$56.00 for the 7 AEA's that are in excess of 100 miles from Des Moines
- Average salary cost for a staff member is \$423.00 per day
- Meal cost would be \$28.00 if the site is greater than 100 miles from the department, \$8.00 if less than 40 miles from the department, and \$23.00 if between 40 and 100 miles from the department.
- There would be no productivity costs for sessions held on the capitol complex.

The department used the ICN 0 times to provide training to local education agencies, area education agencies, and community colleges at 0 sites. The calculated savings generated by these assumptions are \$0.00.

### **ICN Usage Type 5-Training at more than 11 sites**

This type of value-added connection is similar to type 3 and 4 in that it helps us serve our constituent groups at low cost and with time efficiency. Assumptions are:

- No ICN room rental charges for training
- No costs reimbursed for meeting attendees
- Ten attendees at each site

If the training had not been held over the ICN, there would have been only one session held at each Area Education Agency with the following costs:

- Assumes average miles to an AEA from Des Moines is 130 miles for a round trip at a cost of \$101.40
- Staff/Trainer would incur one night's lodging at \$56.00 for the 7 AEA's that are in excess of 100 miles from Des Moines
- Average salary cost for a staff member is \$423.00 per day
- Meal cost would be \$28.00 if the AEA is greater than 100 miles from the department, \$8.00 if less than 40 miles from the department, and \$23.00 if between 40 and 100 miles from the department.
- There would be no productivity costs for sessions held on the capitol complex.

The department conducted training sessions 19 times at a total of 509 sites. The productivity versus the session costs calculated savings of \$110,773.97.

The site by site detail for each session conducted by the department for each of the six types of assumptions is attached.

### **ICN Usage Type 6-Training and Information Sessions conducted by Satellite Down-Link, Dial-Up, and Wideband**

This type of value-added connection is growing in popularity. We see a use for web-based conference connections when working with individuals or small groups remotely. This type of conferencing has the same benefits as many of the other categories. We obviously need the internet connection to be able to conduct this type of meeting and this saves either us or the constituent's time and money in having to travel for what are typically partial day meetings.

The cost for the department on satellite down links, dial-up sessions, and wideband broadcasts is the cost of the ICN time. If this training and information had not been available via these options, we would not have been able to send staff from the department, local education agencies, and area education agencies to out of state locations for these meetings. The department was able to take advantage of 0 of these opportunities and share the information with at 0 sites with 0 people at each site. We were able to provide these sessions to these sites at an additional cost to the department of \$0.00. While we are unable to estimate out of state travel costs for these satellite downlinks, dial-up sessions, and wideband broadcasts, we are confident it would have been cost prohibitive to send staff to these sessions.
