

## Integrating Career Pathways into Career Advising

The purpose of this course is to prepare you — navigators, instructors and counselors — to implement career pathway planning within the context of your situation. The hands-on activities will increase your level of comfort and familiarity with career pathways and the related topics.

By the end of the course, you will be able to:

- compare a variety of resources to assist participants in completing a Career and Education Planning Worksheet;
- tailor the plan to the participant level, intensity of studies, length of time, and aligned, where applicable, to your state or program content standards;
- apply a framework for setting a personal goal and discuss how you would introduce this framework to participants to help them set concrete goals;
- navigate, compare, and assess local and online resources to complement the plan, such as career exploration websites, college websites, One-Stop Centers, and potential community partners; and
- list the education steps needed towards a credential in a specific career pathway and identify a postsecondary institution in your area that provides such training.

**Course Topics:** Career Awareness and Planning  
Cultural Context  
The Self-Exploration Process  
Occupational Exploration  
Career Planning Skills  
Tying It All Together

**Course Format:** facilitated, online. Throughout this six-week course, you will follow a weekly schedule of activities and readings, as well as asynchronous electronic discussions with course participants and the facilitator.
