

Removal Data - Differences Between CEIS and Indicator B4

Removal Data

The table below outlines the similarities and differences between the calculations for State Performance Plan/Annual Performance Report (SPP/APR) - Indicator B4 and Coordinated Early Intervening Services (CEIS). The data set used for all calculations is the final removal data from Student Reporting in Iowa. All removals summed toward cumulative removal happened while the student had an active Individualized Education Plan (IEP).

Please note that the comparison group for Indicator B4 and CEIS are different. That is why a district may be found discrepant in one area but not the other.
