UPDATE:

FFY13 (2013-2014) marks the beginning of a new reporting period and State Performance Plan. There were several noteworthy changes to the Annual Performance Report for the current and subsequent years of the reporting period, which ends with FFY18 (2018-2019). The information below outlines changes to individual indicators. Indicators not listed were unchanged from the prior State Performance Plan.

- **Indicator 2** - The US Department of Education’s Office of Special Education Programs redefined the measurement for Indicator B2 for FFY 2012 (2012-2013). The numerator remains the number of students who dropped out. The denominator has been redefined as the sum of (a) graduated with a regular high school diploma, (b) received a certificate, (c) reached maximum age, (d) dropped out, or (e) died.
- **Indicator 15** - This indicator has been deleted from the SPP/APR.
- **Indicator 20** - This indicator has been deleted from the SPP/APR.

New targets were set for all remaining indicators for FFY13-FFY18. Iowa Department of Education staff developed targets for performance indicators using available data and knowledge of current practices. Proposed targets and rationale were presented to the Special Education Advisory Panel (SEAP) for approval. In some cases, targets for the prior reporting period were deemed to be overly ambitious and were adjusted accordingly. This explains why some targets seem to be moving in the wrong direction between FFY12 and FFY13.

SPED 7.1 - Special Education AEA Profile Reports - Report Definition

REPORT PURPOSE

The Special Education AEA Profiles Report allows users to display AEA-level data on many of the special education indicators that are required based on Iowa's State Performance Report that is required by the Office of Special Education Programs (OSEP) under the Individuals with Disabilities Act (IDEA) of 2004. Annual outcomes and targets are displayed graphically for each indicator.

WHAT DATA ARE INCLUDED / WHAT DATA ARE EXCLUDED

UPDATE:

FFY13 (2013-2014) marks the beginning of a new reporting period and State Performance Plan. There were several noteworthy changes to the Annual Performance Report for the current and subsequent years of the reporting period, which ends with FFY18 (2018-2019). The information below outlines changes to individual indicators. Indicators not listed were unchanged from the prior State Performance Plan.

- **Indicator 20** - This indicator has been deleted from the SPP/APR.

New targets were set for all remaining indicators for FFY13-FFY18. Iowa Department of Education staff developed targets for performance indicators using available data and knowledge of current practices. Proposed targets and rational were presented to the Special Education Advisory Panel (SEAP) for approval. In some cases, targets for the prior reporting period were deemed to be overly ambitious and were adjusted accordingly. This explains why some targets seem to be moving in the wrong direction between FFY12 and FFY13.

This report contains longitudinal AEA-level data, state-level data, and annual targets for the following indicators. Please note that this report must be run based on the federal fiscal year, which then corresponds to a particular school year. For example the FFY 2012 AEA profile corresponds to the 2012-2013 school year. The SPED 7.1 Report uses data reported via Student Reporting in Iowa (SRI) data submissions and information from the Special Education Information Management System (IMS).

DATA CALCULATIONS

The calculations for each indicator are documented in detail in the state's State Performance Report. A summary of these calculations is below:

- B1 – Title 1 Cohort Graduation Rate = $[(FG + TIG) / (F + TI - TO)] * 100$
- B1 – Extended Graduation Rate = $[(FG5 + TIG) / (F5 + TI - TO)] * 100$
FG = First-time 9th grade students in fall of 2006 and graduated in 2010 or earlier
FG5 = First-time 9th grade students in fall of 2005 and graduated in 2010
TIG = Students who transferred in grades 9 to 12 and graduate in 2010 or sooner
F = First-time 9th grade students in fall of 2006
