

## Finance Standards and Benchmarks

The Iowa Department of Education and the Division of Community colleges and Workforce Preparation belongs to a consortium with MarkEd to provide Model Standards and Benchmarks for Finance Education.

These Standards and Benchmarks have been reviewed by an Iowa committee of finance businesspersons who have identified the critical standards for Iowa. Those are listed on the main website as well.

The MarkEd Standards and Benchmarks also identify competencies for career pathways within the Finance cluster. The Department of Education will continue to work with MarkEd to ensure that these are up-to-date. The link for these Standards and Benchmarks can be found at the [MarkEd Standards & Benchmarks website](#). A Finance Program of Study link can also be found at the DE website.
